

Definition: Design responsive layout in Figma using Constraints and Auto Layout.

Solution:

Steps:

- First Open Figma in browser mode.
- Then create the new document **File** → **New Figma Design**.
- Now add one frame using the Frame tool with width="1030 px" and height="680 px" on your canvas give linear gradient color="#FC3838", "#FD3D3D".
- Take Text tool and write "**LOGO**" on the top-left side of the frame with font="50".
- Now on the top-right side of frame write "**Home Popular Trending About Us**" of font="30".
- Select both text to add responsive Autolayout of Horizontal resizing="Fill" and Vertical resizing="Hug".
- Take an image of width="780 px" and height="470 px". To make look like scrollable use text tool to add "<",">" and ".....". Select text and image to add responsive Autolayout of Horizontal resizing="Fixed" and Vertical resizing="Fixed".
- Now to make footer write "**Copyright @2023 Gaurav**" of font="25" on the bottom-left side of the frame.
- Take Rectangle of width="150 px", height="40 px" and corner radios="60" to make **Contact us** Button.
- Write "**Contact us**" of font="20" and color="#FC3838", "#FD3D3D". Select Rectangle and text to add responsive Autolayout of Horizontal resizing="Fixed" and Vertical resizing="Fill".

- Select Above autolayout and **Copyright** text to add responsive Autolayout of Horizontal resizing="Fill" and Vertical resizing="Hug".
- Now, Go to the **Export** button in the property panel. And **Export** it with .JPG/.PNG format.
