

Definition: Create design using various plugins in Figma like, iconify, Unsplash, gradient and wave plugins.

Solution:

Steps:

- First Open Figma in browser mode.
- Then create the new document **File** → **New Figma Design**.
- Now add one frame using the Frame tool with width="700 px" and height="450 px" on your canvas give color by using **Noisy Gradient** plugin.
- Take an Image of width="600 px" and height="400 px" from **Unspalsh** plugin.
- Now add another frame of width="400 px" and height="350 px" and opacity="10%", place wave of opacity="1%", effect Drop shadow and blur="10" by using **Get Wave** plugin.
- Take the text tool and write "**Login**" of font="28" and colour "#FF7D04".
- Take One Rectangle width="300px" & height="50px", colour="#AAABBB" and opacity="50%". in the rectangle take an icon of **User** from Iconify.
- Below that rectangle take another Rectangle width="300px" & height="50px", colour="#AAABBB" and opacity="50%". in the rectangle take an icon of **User** from Iconify.
- Now take the text tool and write "**Remember me**" of font="13" and colour "#FFFFFF".
- Beside that text box take another one and write "**Forgot Password**" with the font="13" and colour "#FFFFFF".
- Take One Rectangle width="300px" & height="50px" and colour is "#FF7D04". in the rectangle take a text tool & write "**Submit**" with the colour "#000000".

- Now, Go to the **Export** button in the property panel. And **Export** it with **.JPG/.PNG** format.
