

**Definition: How to use images and masking in Figma.**

**Solution:**

**Steps:**

- First Open Figma in browser mode.
- Then create the new document **File** → **New Figma Design**.
- Set the background for frame of colors “# FFFFFFF”.
- Take an ellipse-1 of width=“400 px” and height=“400 px”, now add an image-1 over the ellipse. Select both and add masking.
- Take an ellipse-2 of width=“300 px” and height=“300 px”, now add an image-2 over the ellipse. Select both and add masking.
- Take an ellipse-3 of width=“450 px” and height=“450 px”, now add an image-3 over the ellipse. Select both and add masking.
- Take an ellipse-4 of width=“400 px” and height=“400 px”, now add an image-4 over the ellipse. Select both and add masking.
- Now, Go to the **Export** button in the property panel. And **Export** it with .JPG/.PNG format.
