

Definition: Use vector mode to edit and customize vector shapes and design icons.

Solution:

Steps:

- First Open Figma in browser mode.
- Then create the new document **File** → **New Figma Design**.
- Set the background colors “#454545” of frame.
- Take 10 ellipses of height=“50 px” and width=“50 px” and color=“#FFFFFF” to draw logos inside of them.
- **Steps for Filled Home Logo:**
 - Take the rectangle-1 for **wall** of height=“20 px” and width=“25 px” and fill color=“#000000”.
 - Take the rectangle-2 inside of rectangle-1 for door rectangle-2 height=“10 px” and width=“10 px” and fill color=“#FFFFFF”.
 - Take the polygon for ceiling of height=“15 px” and width=“40 px” and fill color=“#000000”.
- **Steps for Outline Home Logo:**
 - Take Pen tool to draw outline Home Logo of width=“40 px” and height=“35 px”.
- **Steps for Filled Location Logo:**
 - Take an ellipse for height=“40 px”, width=“25 px” and fill color=“#000000”.
 - Take another ellipse of width=“15 px” and height=“15 px” inside of previous one.
- **Steps for Outline Location Logo:**

- Take an ellipse for height="40 px", width="25 px", stroke="2 px" and give opacity="0%".
- Take another ellipse of width="15 px", height="15 px", stroke="2 px" and opacity="0%" inside of previous one.
- **Steps for Filled YouTube Logo:**
 - Take a rectangle of height="20 px", width="35 px", color="#000000", corner radius="3".
 - Take the polygon for height="10 px", width="10 px", rotation="-90°" and fill color="#FFFFFF".
- **Steps for Outline YouTube Logo:**
 - Take a rectangle of height="20 px", width="35 px", corner radius="3", stroke="2 px" and give opacity="0%".
 - Take the polygon for height="10 px", width="10 px", rotation="-90°", stroke="2 px" and give opacity="0%".
- **Steps for Filled Instagram Logo:**
 - Take rectangle-1 of height="30 px", width="30 px", color="#000000", corner radius="5".
 - Take rectangle-2 inside of rectangle-1 with height="25 px", width="25 px", color="#FFFFFF", corner radius="5".
 - Take rectangle-3 inside of rectangle-2 with height="20 px", width="20 px", color="#000000", corner radius="5".
 - Now inside of rectangle-3 take an ellipse of height="10 px", width="10 px", color="#FFFFFF".
 - Take another ellipse of height="3 px", width="3 px", color="#FFFFFF" to draw white dote on the top-right corner of rectangle-3
- **Steps for Outline Instagram Logo:**
 - Take rectangle-1 of height="30 px", width="30 px", corner radius="5", stroke="2 px" and give opacity="0%".
 - Take rectangle-2 inside of rectangle-1 with height="25 px", width="25 px", corner radius="5", stroke="2 px" and give opacity="0%".
 - Take rectangle-3 inside of rectangle-2 with height="20 px", width="20 px", corner radius="5", stroke="2 px" and give opacity="0%".
 - Now inside of rectangle-3 take an ellipse of height="10 px", width="10 px", stroke="2 px" and give opacity="0%".
 - Take another ellipse of height="3 px", width="3 px", stroke="1 px" and give opacity="0%" to draw white dote on the top-right corner of rectangle-3
- **Steps for Filled Like Button:**
 - Take Pen tool to draw outline Like button of width="30 px", height="20 px" and fill color="#000000".
- **Steps for Outline Like Button:**

- Take Pen tool to draw outline Like button of width="40 px", height="35 px" and stroke="2 px".
- Now, Go to the **Export** button in the property panel. And **Export** it with .JPG/.PNG format.
